

## IP65 OUTDOOR WALL MOUNTED SERVER CABINET: NON-VENTILATED

4Cabling's outdoor 19" wall mount cabinets are designed to protect your sensitive network equipment from harsh environments. We have included features to safeguard your equipment from the elements, while still keeping it secure.

Our outdoor server racks include a high grade polyurethane door joint strip, rain hood and are secured with a 3-point swing handle locking system. All fixtures are internal to the cabinet to provide a secure solution.

### FEATURES

- Secure door with 3-point locking system
- Fully welded design for strength and durability
- Made from powder coated 1.2mm cold-rolled steel
- Supplied fully assembled, ready to be installed
- Rain hood included
- Adjustable 19" mounting rails installed front and rear with RU markings
- Max rail to rail depth of 340mm on the 400mm deep version and 370mm on the 600mm deep version that can be adjusted to your needs
- Front mounted vertical cable management rings on both sides
- Round cable glands with removable rubber covers on base
- High grade polyurethane door joint strip
- IP65 rated<sup>(1)</sup>
- Static load capacity of 130kg
